Wearing Jewellery

Care should always be taken when removing jewellery to stop it catching on clothing. Jewellery should be put on last and taken off first when dressing. Be careful not to knock the jewellery against any hard objects as this may cause scratches or chips in the piece. Do not

allow your jewellery to come into contact with water containing any chlorine or bleach.

Watch Care & Maintenance

We would advise you to clean your watch regularly using a soft cloth. Keep your watch in the original packaging. Do not leave it anywhere it might be subjected to major variations in temperature or humidity, in the sunlight or near magnetic fields. It is water resistant for daily life. Do not operate when the crown is set. Always set the crown in the original position. It may be difficult to pull the crown out due to dirt and dust getting caught between the crown and the case when the watch is worn for worn for long periods of time. CRYSTAL

vases, bowls, stemware, connoisseur collection, candle holders, clocks, trophies, chandeliers, lamps

Tipperary Crystal has evolved as a company over recent years but is still steeped in its original crystal heritage. Our roots are in Crystal since the founding of the company by master craftsmen Philip Walsh, Joe Foley and John Maher in 1988. Our crystal collections reflect many of the original designs from the companies origins. Enjoy the luxury of sipping wine from our crystal stems whilst the light bounces through creating a prism of colours. Crystal, at the core of our heritage.

TIPPERARY CRYSTAL Vases & Bowls

Tipperary Crystal is a premium crystal made from 24% leaded crystal which allows the crystal to be cut and allows for a "sparkle" factor. Tipperary Crystal also produce non-leaded crystal which has all the attributes of leaded crystal without the heavy price tag.

Glassware & Decanters

Tipperary Crystal has created a sparkling collection of crystal stemware and decanters for your drinking pleasure. These beautifully designed collections contain titanium and give additional strength to the glasses, making them less susceptible to scratching and chipping.

This innovative technology allows the titanium to be included in the glass melt during production and has a direct impact of adding extra strength to the stemware. Titanium Strength™ by Tipperary Crystal is a protected technology, is new to the Irish marketplace and ensures a longer-lasting product.

Eoin O'Connor

TIPPERARY CRYSTAL Modern Artists Collection

EOIN O'CONNOR'S eclectic style and striking use of colour makes his work instantly recognisable. While his command over scale and perspective is rooted in his architectural training, his passion remains firmly grounded in creating strikingly vibrant paintings which echo his unique view of Irish life. Eoin's vividly contrasting palette and striking compositions provide an instantly recognisable style to his extensive body of work; one which remains inspired by the beauty of Ireland's landscapes, seascapes and inhabitants!

His unique use of high quality paints on thick canvas results in creating a multi-dimensional perspective for the viewer; heightened through techniques such as impasto and a nuanced understanding of his subject matter.

Eoin has exhibited in London and New York, as well as a number of Irish venues including his own galleries. Eoin has a desire to produce and display locally inspired, and created art within a globally accessible platform.

Funky Feet®

Cool socks for cool people, socks by funky people for funky people, show your individuality and wear them with a smile on your face!

Produced from Combed Cotton

Combed Cotton is softer than regular cotton because it doesn't have any impurities or short protruding threads, and it is stronger than regular cotton because the combing process removes short fibres, which are prone to breakage. After combing, the straightened fibres join together more tightly, leading to less fraying and unravelling. These benefits plus the additional work required during the manufacturing process makes combed cotton more comfortable and resistant.
