## CØLLECTION

The Tipperary Skandi jewellery collection is inspired by our love for the simple, clean lines of Scandinavian design. This is reflected in the culture and design throughout this part of the world with structured shapes and simple lines. The Scandinavian concept of 'hygge' loosely translates as cosiness, but it means more than that. It's about a feeling of well-being, about enjoying life. We hope you enjoy the well-being that this collection brings to you.

TIPPERARY

The tree of life is a symbol of a fresh start in life, positive energy, good health and a bright future. The symbolism of the Tree of Life is ultimately about the forces of nature combining to create balance and harmony. The branches reach for the sky, and the roots reach down into the ground. A representation of the link between heaven and earth, mind and body and the never-ending cycle of life. Our Tree of Life Jewellery collection reflects these positive and rejuvenating forces freshly and uniquely.

## TIPPERARY JEWELLERY CARE

Cleaning jewellery, storing jewellery, wearing jewellery

### Cleaning Jewellery

As Tipperary Jewellery features a delicate understated style, you should always clean the piece with great care. Wearing jewellery regularly can cause a build-up of natural oils from your skin. Simply polish with a cotton cloth to help maintain the original lustre. Avoid the use of any abrasive materials to clean your Tipperary Crystal jewellery as this will cause scratching and damage the surface.

### Storing Jewellery

It is advisable to store your Tipperary jewellery in its original packaging. Each piece should be stored separately to avoid scratching or tangling.

### Wearing Jewellery

Care should always be taken when removing jewellery to stop it catching on clothing. Jewellery should be put on last and taken off first when dressing. Be careful not to knock the jewellery against any hard objects as this may cause scratches or chips in the piece. Do not

allow your jewellery to come into contact with water containing any chlorine or bleach.

### Watch Care & Maintenance

We would advise you to clean your watch regularly using a soft cloth. Keep your watch in the original packaging. Do not leave it anywhere it might be subjected to major variations in temperature or humidity, in the sunlight or near magnetic fields. It is water resistant for daily life. Do not operate when the crown is set. Always set the crown in the original position. It may be difficult to pull the crown out due to dirt and dust getting caught between the crown and the case when the watch is worn for long periods of time. To prevent this, occasionally turn the crown freely back and forward. Battery life is approximately 2 years.

### Warranty

Your Tipperary Crystal watch is under warranty for a period of 12 months from the date of purchase

# CRYSTAL

*vases, bowls, stemware, connoisseur collection, candle holders, clocks, trophies*

Tipperary has evolved as a company over recent years but is still steeped in its original crystal heritage. Our roots are in Crystal since the founding of the company by master craftsmen Philip Walsh, Joe Foley and John Maher in 1988. Our crystal collections reflect many of the original designs from the companies origins. Enjoy the luxury of sipping wine from our crystal stems whilst the light bounces through creating a prism of colours. Crystal, is at the core of our heritage.

TIPPERARY

## *Connoisseur Collection*

---

Tipperary, in association with Liam Campbell of the Irish Guild of Sommeliers, has created a premium series of fine crystal glassware. We are sure this exquisite collection will appeal to the connoisseur and indeed all wine, whiskey, brandy, or champagne enthusiasts.

To add to the gifting appeal of this exquisite collection, Tipperary has included two gift boxing variations allowing the consumer to add either a bottle of wine or champagne to the gift set.

## Glassware Care

The correct handling and care of glassware will enhance the appearance and longevity of the product in use. The following is a guide to care for your crystal stemware, basic tips to avoid breakage are;

- Never pick up glasses in clusters.
- Do not put cutlery into glasses.
- Do not stack glasses.
- Do not put cold liquids into hot glasses straight from the dishwasher as this can cause cracks.

---

TIPPERARY

## *Glassware & Decanters*

---

Tipperary has created a sparkling collection of crystal stemware and decanters for your drinking pleasure. These beautifully designed collections contain titanium and give additional strength to the glasses, making them less susceptible to scratching and chipping.

This innovative technology allows the titanium to be included in the glass melt during production and has a direct impact on adding extra strength to the stemware. Titanium Strength™ by Tipperary is a protected technology, that is new to the Irish marketplace and ensures a longer-lasting product.

1. David McGlynn Sculpture  
Girl with balloons 'Joyful'  
165854 RRP 90

David McGlynn, is one of Ireland's most innovative and creative artists, born in Dublin he studied foundry engineering and bronze casting in Belfast after earning a BA in Fine Art Sculpture from NCAD in 1993.

His sculptures are influenced by music, flight and the wonder of childhood imagination. This imbues them with a lyrical and magical quality. His work often incorporates a combination of glass, copper, stone and stainless steel in addition to the original emphasis on the use of bronze casting.

McGlynn's visual art defines convention and is always exploring new possibilities within the journey and mystery that is life.

## *Eoin O Connor*

EOIN O'CONNOR'S eclectic style and striking use of colour makes his work instantly recognisable. While his command over scale and perspective is rooted in his architectural training, his passion remains firmly grounded in creating strikingly vibrant paintings which echo his unique view of Irish life. Eoin's vividly contrasting palette and striking compositions provide an instantly recognisable style to his extensive body of work; one which remains inspired by the beauty of Ireland's landscapes, seascapes and inhabitants! His unique use of high quality paints on thick canvas results in creating a multi-dimensional perspective for the viewer; heightened through techniques such as impasto and a nuanced understanding of his subject matter.

Eoin has exhibited in London and New York, as well as a number of Irish venues including his own galleries. Eoin has a desire to produce and display locally inspired, and created art within a globally accessible platform.

TIPPERARY

## *Canteens of Cutlery*

---

Tipperary cutlery is made of 18/10 quality stainless steel. Similar to the sterling hallmark on fine jewellery, this branding ensures you are getting premium quality cutlery. The first number '18' refers to the percentage of chrome, added for durability and greater resistance to erosion. The second number '10' refers to the percentage of nickel, used to give flatware a soft sheen similar to silver. So, when Tipperary is referred to as 18/10, it has 18% chrome and 10% nickel. Each piece of cutlery has 18/10 stamped onto the body and each knife has Tipperary branded on the blade.
