Crystal Glasses

Tipperary Crystal® stems contain titanium which gives additional strength to the glasses and makes them less susceptible to scratches. This allows greater washing cycles in a dishwasher without suffering any degrading impact on the glass. This innovative technology allows the titanium to be included in the glass melt during production and has the direct impact of extra strength in the stemware.

Titanium Strength™ by Tipperary Crystal is a protected technology that is new to the Irish marketplace and ensures a longer lasting product.

TITANIUM STRENGTH™
— TIPPERARY CRYSTAL —

Each stem has the Tipperary Crystal® brand etched onto the foot of the glass, exclusive branding for an exclusive product.

Engraving

Tipperary Crystal® stemware can be engraved with your brand, this gives an additional exclusivity to the stemware and is an ideal medium for presentation of your brand to your customers.

Cutlery

Tipperary Crystal® cutlery is all 18/10 quality stainless steel. Similar to the sterling silver hallmark on fine jewellery, this branding ensures you are getting premium quality cutlery. The first number refers to the percentage of chrome, added for durability and greater resistance to corrosion. The second number refers to the percentage of nickel, used to give flatware a soft sheen similar to silver. So, when Tipperary Crystal cutlery is referred to as 18/10, it has 18% Chrome and 10% nickel. Each piece of cutlery has Tipperary 18/10 stamped onto the body and each knife has Tipperary branded on the blade.

'Enjoy life, eat well, laugh often, love much'
