A representation of the link between heaven and earth, mind and body and the never ending cycle of life. TIPPERARY CRYSTAL JEWELLERY CARE

Cleaning jewellery, storing jewellery, wearing jewellery

Cleaning Jewellery

As Tipperary Crystal Jewellery features a delicate understated style, you should always clean the piece with great care. Wearing jewellery regularly can cause a build up of natural oils from your skin. Simply polish with a cotton cloth to help maintain the original lustre. Avoid the use of any abrasive materials to clean your Tipperary Crystal jewellery as this will cause scratching and damage the surface.

Storing Jewellery

It is advisable to store your Tipperary Crystal jewellery in it's original packaging. Each piece should be stored separately to avoid an scratching or tangling.

Wearing Jewellery

Care should always be taken when removing jewellery to stop it catching on clothing. Jewellery should be put on last and taken off first when dressing. Be careful not to knock the jewellery against any hard objects as this may cause scratches or chips in the piece. Do not allow your jewellery to come into contact with water containing any chlorine or bleach.

Watch Care & Maintenance

We would advise you to clean your watch regularly using a soft cloth. Keep your watch in the original packaging. Do not leave it anywhere it might be subjected to major variations in temperature or humidity, in the sunlight or near magnetic fields. It is water resistant for daily life. Do not operate when the crown is set. Always set the crown in the original position. It may be difficult to pull the crown out due to dirt and dust getting caught between the crown and the case when the watch is worn for worn for long periods of time. To prevent this, occasionally turn the crown freely back and forward. Battery life is approximately 2 years.

Warranty

Your Tipperary Crystal watch is under warranty for a period of 12 months from the date of purchase

Caring for Bone China

Tipperary Crystal ceramics are made from bone china which gives the ceramic a clean, white finish. Stack crockery separately from other items such as cutlery, saucepans or glass. Over washing will cause the glaze to dull and the design to fade.

The following guide will ensure that your Tipperary Crystal ceramics and china is looked after properly and will last longer.

- Wash the item as soon as possible after use.
- It is advisable to wash crockery separate to cutlery:
- Metal utensils can cause metal markings.
- Don't scrape leftovers wipe with a paper towel or plastic scraper.
- Never use an abrasive cleaner or pot scourer as this will damage the glaze as well as any decorations on the item.

Degas

TIPPERARY CRYSTAL

Famous Artists Collection

EDGAR DEGAS was born in Paris, July 19th 1834, just south of Montmartre, he always remained a proud Parisian, living and working in the same area of the city throughout his career.

The artist's mother died when he was 13 years old, leaving three sons and two daughters to be brought up by his father, a banker by profession. Degas's father helped to develop his son's interest in painting and in 1855 encouraged him to register at the École des Beaux-Arts.

Always remembered as an Impressionist, Edgar Degas was a member of the seminal group of Paris artists who began to exhibit together in the 1870's. Degas's academic training, and his own personal leaning toward Realism, set him apart from his peers, and he rejected the 'Impressionist' label. Degas is best known for his study of ballerinas.

Recognised as an important artist in his lifetime, Degas is now considered one of the founders of Impressionism. Though his work crossed many stylistic boundaries, his involvement with the other major figures of Impressionism and their exhibitions served to tie him to the Impressionist movement. Edgar Degas died in Paris on September 27th 1917.

Renoir

TIPPERARY CRYSTAL

Famous Artists Collection

PIERRE-AUGUSTE RENOIR was born on February 25, 1841, in Limoges, France. As a teenager, Renoir became an apprentice to a porcelain painter. He learned to copy designs and decorated plates, mugs and cups.

Renoir had to take a break from his work in 1870 when he was drafted into the army to serve in France's war against Germany. He was assigned to a cavalry unit, but he soon fell ill with dysentery. After the war ended in 1871, Renoir and some of his friends, including Pissarro, Monet, Cézanne and Edgar Degas, decided to show their works in Paris in 1874, this became known as the first Impressionist exhibition. The group's name is derived from a critical review of their show, in which the works were called "impressions" rather than finished paintings done using traditional methods. Renoir, like other Impressionists, embraced a brighter palette for his paintings, which gave them a sunnier and warmer feel. Renoir also used different types of brushstrokes to capture his artistic vision on the canvas. Renoir passed away peacefully in Cagnes-sur-Mer, France, in 1919.

Monet

TIPPERARY CRYSTAL

Famous Artists Collection

OSCAR CLAUDE MONET was born on November 14th 1840, in Paris France. His work gave a name to the art movement Impressionism, which was concerned with capturing light and natural forms.

He would paint the same scene many times in order to capture the changing of light and the passing of the seasons. In May 1883, Monet and his family rented a house and two acres of land in Giverny, France. There was a barn that doubled as a painting studio, orchards and a small garden. The surrounding landscape offered an endless array of suitable subjects for Monet's work. By 1899 Monet had built magnificent gardens at Giverny. He worked on "series" paintings, in which a subject was depicted in varying light and weather conditions. His first series exhibited was "Haystacks", painted from different points of view and at different times of the day. Other series of paintings include Rouen Cathedral, Poplars, the Houses of Parliament, Mornings on the Seine, and the Water Lilies.

Monet began painting "Water Lilies" in 1899, first in vertical views with a Japanese bridge as a central feature, and later in the series of large-scale paintings that was to occupy him continuously for the next twenty years of his life.

Monet died on December 5th 1926 at his home in Giverny, France.

Van Gogh

Famous Artists Collection

VINCENT VAN GOGH was born on March 30th 1853 in the Netherlands. He was a post impressionist painter whose work, notable for it's beauty, emotion and colour, highly influenced 20th century art. He struggled with mental illness and remained poor and virtually unknown throughout his life.

In December 1888 van Gogh famously took a razor to his ear, offered it to a woman, asking her to 'keep this object carefully'.

Vincent died in France on July 29th, 1890 at the young age of 37.

Eoin O'Connor

TIPPERARY CRYSTAL

Modern Artists Collection

EOIN O'CONNOR'S eclectic style and striking use of colour makes his work instantly recognisable. While his command over scale and perspective is rooted in his architectural training, his passion remains firmly grounded in creating strikingly vibrant paintings which echo his unique view of Irish life. Eoin's vividly contrasting palette and striking compositions provide an instantly recognisable style to his extensive body of work; one which remains inspired by the beauty of Ireland's landscapes, seascapes and inhabitants!

His unique use of high quality paints on thick canvas results in creating a multi-dimensional perspective for the viewer; heightened through techniques such as impasto and a nuanced understanding of his subject matter.

Eoin has exhibited in London and New York, as well as a number of Irish venues including his own galleries. Eoin has a desire to produce and display locally inspired, and created art within a globally accessible platform.

TIPPERARY CRYSTAL Canteens of Cutlery

Tipperary Crystal cutlery is all 18/10 quality stainless steel. Similar to the sterling hallmark on fine jewellery, this branding ensures you are getting premium quality cutlery. The first number '18' refers to the percentage of chrome, added for durability and greater resistance to erosion. The second number '10' refers to the percentage of nickel, used to give flatware a soft sheen similar to silver. So, when Tipperary Crystal is referred to as 18/10, it has 18% chrome and 10% nickel. Each piece of cutlery has 'Tipperary 18/10' stamped onto the body and each knife has Tipperary branded on the blade.
